 Weekly Homework Tasks

Key Stage 2 Year 4

W/C 5.11.18

Homework books **must be in school on Monday** and it will be returned on Tuesday

Reading

Please read aloud to an adult every day. Write a summary of what you have read or discuss the story with an adult. Please record in your reading record book the pages that you have read each day. **Remember to bring your book and reading record to school every day.** Please visit Nelson School Library or East Ham Library for your reading wristband books.

Maths

Please practise your **Maths facts:** ready for your **test on Friday.**

Sums and differences of multiples of 10 up to 100

This is about being able to use all the multiples of 10 (10, 20, 30 ...) up to 100 in both addition and subtraction.

You could:

- Ask: Add 80 and 30, tell me how you did it.
- Say: Tell me all the number pairs you know with multiples of 10 which make 90.
- Ask: What is the difference between 20 and 80?
- Say: Look at these multiples of 10... Which pairs give a total of 100?

0 10 20 30 40 50 60 70 80 90 100

Incredible Invertebrates!

10 Invertebrates are a species of animal that do not have
 18 a back bone. Mammals, amphibians, reptiles, fish and
 29 birds do not fit into this category because they all have
 38 vertebrae (spinal bones), but these animals make up less
 49 than 4% of all the animal species on Earth. This means
 58 that around 96% of animal species alive are invertebrates.
 56 These include marine invertebrates and molluscs, such as
 75 sponges, jellyfish and oysters, as well as crustaceans and
 32 insects, such as crabs, shrimp and butterflies.

71 The largest invertebrate ever recorded was a giant squid
 79 that measured 13m long. The smallest invertebrates are
 10 so tiny that they cannot be seen by the naked eye.

1. Write a short definition of the word 'invertebrate'.
2. What percentage of animals on Earth actually have spinal bones?
3. Who do you think this information is for?
4. Write two questions that you could find the answers to in this text.

Spelling –

- 1) Write a sentence for each of the words that makes sense and shows that you understand the word.
- 2) **Practise and study** all of the spelling words ready for the **Weekly Spelling Test.**

recent	probably	invertebrate	sensitivity
regular	promise	vertebrate	nutrition
reign	purpose	conditions	energy
remember	quarter	movement	respiration
sentence	question	reproduction	growth

THE LAST LEAF

by Harry Behn

A few leaves stay for a while on the trees
After their colour begins to turn,
And no other leaves seem as gold as these
Not even the ones our bonfires burn
With golden flames in piles on the ground.
A few leaves stay so long that I found
The one last leaf on a tree in the snow,
And when a galloping wind came round
The edge of our house and started to blow
Snow dust to sparkles floating free.
When the wind ran away, almost with me,
And sunshine settled quiet and cold.
There, like a bird, still on the tree
Was that lonesome leaf, no longer gold
But curly and brown and dry and old.

Questions to answer in your yellow book.

- (1) What stays for a while on the trees?
- (2) After a few leaves stay so long, what did the reader find?
- (3) How did the Author describe the sunshine?
- (4) What was the lonesome leaf like?
