This week the Friday test will be on **Knowing all decimals that total 1 and 10 (up to 1 decimal place) (6.3)** This target is about building on earlier work linked to number bonds, i.e. knowing the pairs of numbers which go together to make 10. This target requires children to know the pairs of number that go together in order to equal 10 or 100; including numbers with 1 decimal place, e.g. $3.6 + 6.4 = 10$ $2.8 + 7.2 = 10$ $50.2 + 49.8 = 100$

Comprehension.

This week we are looking at understanding and working out the meaning of words in context. Read the text carefully and underline the words that are in the questions. In each case the question asks you to work out what the word means and to write a synonym for the word, or to tick the circle the word that means the same. Make sure you use the strategies we have discussed in class and do not rush this.
