Please practise your **times tables** ready for the times table test on **Monday**, and your **maths facts** ready for your test on **Friday**. This week the Friday test will be on **Knowing all decimals that total 1 and 10 (up to 1 decimal place) (6.3)** This target is about building on earlier work linked to number bonds, i.e. knowing the pairs of numbers which go together to make 10. This target requires children to know the pairs of number that go together in order to equal 10 or 100; including numbers with 1 decimal place, e.g. $3.6 + 6.4 = 10$ $2.8 + 7.2 = 10$ $50.2 + 49.8 = 100$

See if you can get quicker by the third text! Write your answers in your homework book and also write down how long each one took you. We will be doing more exercises like this in class.
