Please read aloud to an adult every day. Please record in your reading record book the pages that you have read each day. **Remember to bring your book and reading record to school every day.** Please visit Nelson School Library or East Ham Library for your books.

Maths

Please practise your **times tables** ready for the times table test on **Monday**, and your **maths facts** ready for your test on **Friday**. This week the Friday test will be on **Knowing all decimals that total 1 and 10 (up to 1 decimal place) (6.3)** This target is about building on earlier work linked to number bonds, i.e. knowing the pairs of numbers which go together to make 10. This target requires children to know the pairs of number that go together in order to equal 10 or 100; including numbers with 1 decimal place, e.g. $3.6 + 6.4 = 10$ $2.8 + 7.2 = 10$ $50.2 + 49.8 = 100$

Comprehension.

This week we are concentrating on understanding question stems. You need to practise making sure that you recognise what sort of answer each of the question stems requires. The following words are used in the questions:

Which –this type of question asks you to choose between options and sometimes justify your answer

When – this type of question requires a time answer

Where –this type of question asks for a location answer – a place

Why or how –these type of questions ask for reasons and explanations

If the questions are not straight 'looking' questions (text retrieval) they may also want you to explain or give reasons for your answer.

Read the text carefully and answer each question fully.
