Comprehension.

This week we are concentrating on understanding question stems. You need to practise making sure that you recognise what sort of answer each of the question stems requires. The following words are used in the questions:

Which –this type of question asks you to choose between options and sometimes justify your answer

When – this type of question requires a time answer

Where –this type of question asks for a location answer – a place

Why or how –these type of questions ask for reasons and explanations

If the questions are not straight 'looking' questions (text retrieval) they may also want you to explain or give reasons for your answer. Read the text carefully and answer each question fully.
