Art in Nature

Look at this photograph of a sculpture made by an artist called Andy Goldsworthy.

Andy Goldsworthy: Inspired by nature

He has made the shape out of leaves from a horsechestnut tree. He has used thorns to hold them together. The sculpture is in the woods where it was made.

All of Andy Goldsworthy's sculptures are like this, made out of the things he finds in nature and nothing else. He only uses fallen or dying materials and never takes them away from where he finds them.

He builds towers or arches with flat stones. He weaves with branches. He makes patterns out of sticks and plant stalks.

He doesn't carry a bag of tools and he doesn't buy his materials. Instead, he goes empty-handed to a suitable place and works with nature. He often starts work hours before daylight.

Instead of using glue, he uses the early morning dew or frost. Instead of using nails or pins, he uses thorns.

Have you ever made a daisy chain or floated leaves down a stream? Well that is the kind of way Andy Goldsworthy works. He is an artist with the curiosity of a child and a deep understanding of nature.

Artists like Andy Goldsworthy are called 'environmental sculptors'. This means they make sculptures without causing any damage to nature or the environment. It is a different way of working from most artists.

Try it yourself

Anyone can have a go at being an environmental sculptor. All that you need is a place which has lots of interesting plants, trees, earth or rocks.

A visit to a park, wood, forest, rocky place, the beach or even the school playground, will provide all of the materials.

Here are some suggestions of things to make and do, using nature's materials.

- Try weaving long grasses into something.
- Use thorns to attach twigs, plant stalks and leaves into patterns on the ground or along a tree trunk.
- Arrange loose, large pieces of wood or branches in an interesting and unusual way.
- Float leaves, twigs or dying flower petals on pools, streams or puddles.

You might like to keep a record of your sculpture.

Take a photograph or do a simple drawing of the sculpture and write a description of it.

Think about:

- how it is arranged;
- what material the sculpture is made from;
- how the sculpture fits with its environment;

– a title for it.
