

<https://www.youtube.com/watch?v=-WR-FyUQc6I> This shows you how to use a pencil well.

Look very carefully at these images before you try to draw them. Look at the shapes they make and think about how you can show textures by mark-making. Think:

- How could you re-create the hair?
- How could you make the eyes look dark and glossy?
- How could you represent the light and dark by just using your pencil?

How would you position the image on your paper? Don't make it or too big.

**Now good luck and get drawing!**
